Some words about Trento.

Trento is the capital city of the autonomous province of Trentino Alto-Adige, situated in the Adige river valley in North Italy. The city has a population of around 120.000 inhabitants excluding the periphery layouts and is a major educational, scientific and political centre with sheltering the University of Trento which is ranked among the best universities in Italy and in Europe. Having the advantage of being a university city, Trento enjoys a number of student oriented cultural activities also at an international level.

Trento is well-connected to the neighboring cities through railway, among others:

Verona in about one hour
Bolzano in 40 minutes and
Vicenza in 1,5 hours.

Within easy commute, also, is located the Caldonazzo Lake and the famous Garda Lake which can be reached in about 1,5hours from Trento. The city has a picturesque Medieval and Renaissance historic centre, with typical ancient buildings and touristic attraction points such as the Trento Cathedral and the Castello del Buonconsiglio.

Keep in mind that there are many students in Trento, but they are here to study and there is no nightlife, no discos and most bars close at midnight :-)

Is a non-profit organization established in 2004 by a group of friends who wanted to develop international exchange, mutual understanding, and intercultural sensitivity in youngsters.

InCo has the objective of furthering international exchanges between youth, increasing and improving the level of contact among different cultures, stimulating intercultural sensibility and preventing and combating racism, prejudices and social exclusion.

InCo is both sending organization for ESC volunteers and co-ordinating organization for different host projects which host independent volunteers (MTV and LTV).

ISTITUTO COMPRENSIVO COMENIUS

The Comprehensive School "J. A. Comenius" is composed of 3 primary schools, a middle school and a school with special teaching. Pupils are 1003, 134 teachers, secretaries 9, a computer technician and 15 school collaborators. The Institute is particularly attentive to multilingualism.

Since last year, subjects are taught in German also in other 4 classes of the primary school.

The teachers are available to innovations and experiments, especially regarding linguistic and methodological aspects, promoting an experimental teaching methodology aimed at the development of students' competences and abilities necessary in an international educational and professional context.

The Institute "J.A: Comenius" promotes school inclusion by giving value to cultural differences present in the Institute through intercultural trainings; offering workshops in small groups for students facing learning difficulties; offering workshop of "making" giving value to students' abilities and skills to avoid drop-outs and early school leaving favouring students' creativity and entrepreneurship through the participation in projects such as "Trentino Young scientist Challenge".

THE PROJECT: WHAT WILL YOU DO?
